EDUCATION

Vardhaman College of Engineering

B. Tech in Computer Science and Engineering - CGPA: 9.28

2022 – 2026

Hyderabad, India

Alphores Junior College

Intermediate (MPC) - 93%

2020 – 2022

Karimnagar, India

St. Joseph's High School

SSC - GPA: 10.0

2020

Husnabad, India

COURSEWORK / SKILLS

- Data Structures
- Operating Systems
- Machine Learning
- Web Development
- Algorithms
- Computer Networks
- Artificial Intelligence
- Cloud Computing
- DBMS
- OOPs
- Software Engineering
- Compiler Design

PROJECTS

RAG-Based Intelligent Question Answering System / Python, LangChain, OpenAI, NLP April 2026

- Developed a Retrieval-Augmented Generation (RAG) system capable of answering user queries from custom document repositories.
- Implemented document ingestion, text chunking, embedding generation, and semantic retrieval using vector databases.
- Integrated Large Language Models (LLMs) with retrieval pipelines to generate context-aware and accurate responses.
- Improved response relevance by combining semantic search with generative AI techniques.

WorkBridge: AI-Driven Employment Portal / ReactJS, NodeJS, ExpressJS, MongoDB Feb 2025

- Developed a full-stack employment platform connecting organizations with skilled professionals through role-based dashboards.
- Implemented authentication, job posting, application management, employee selection workflow, and secure user management.
- Designed responsive user interfaces using ReactJS and Tailwind CSS while integrating REST APIs and MongoDB database operations.

Emotion Detection Using Deep Learning / Python, TensorFlow, OpenCV, CNN Jan 2026

- Designed and developed a deep learning-based emotion recognition system using facial expression analysis.
- Trained Convolutional Neural Networks (CNN) on emotion datasets for multi-class emotion classification.
- Implemented real-time emotion detection through webcam integration and visualized prediction results.
- Achieved accurate emotion recognition using TensorFlow, Keras, OpenCV, and Deep Learning techniques.

Student Performance Analysis Using ML / Python, Pandas, Scikit-Learn, Matplotlib Oct 2024

- Built a machine learning regression model achieving approximately 85% prediction accuracy for student performance analysis.
- Performed data preprocessing, feature engineering, and model evaluation using Scikit-Learn.
- Visualized relationships between attendance, marks, and outcomes through interactive charts and graphs.

INTERNSHIP

NIELIT Virtual Academy

Front-End Development Intern

Aug 2024 – Oct 2024

Remote

- Completed an 8-week internship focused on HTML, CSS, JavaScript, and responsive web development.
- Developed interactive user interfaces and strengthened front-end development fundamentals.

Salesforce Developer with Agentblazer Champion Program

Salesforce Developer Intern

May 2025 – Jul 2025

Virtual

- Completed Salesforce Fundamentals, Data Management, Security Management, and Process Automation modules.
- Worked on Apex Specialist challenges, Lightning Web Components, and Salesforce administration concepts.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL, C

Frontend: HTML5, CSS3, JavaScript, ReactJS, Tailwind CSS

Backend: NodeJS, ExpressJS, REST APIs

Database: MongoDB, MySQL

Machine Learning: Scikit-Learn, TensorFlow, Keras, OpenCV, Pandas, NumPy

Tools & Platforms: Git, GitHub, VS Code, Postman, AWS Academy, Salesforce

Core Subjects: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, OOPs

EXTRACURRICULAR

HackWave Hackathon

Participant

2024

Hyderabad

- Participated in HackWave conducted by Sreenidhi Institute of Science and Technology.
- Collaborated with team members to solve real-world technology challenges and improve problem-solving skills.

ACHIEVEMENTS

- Published research paper titled WorkBridge: AI-Driven Employment Portal in IJRIT.
- Participated in Smart India Hackathon and proposed a Sign Language Recognition application.
- Participated in Sreenidhi Hackathon and developed a platform for aggregation of government schemes.
- Attended IEEE DevOps Workshop and gained hands-on exposure to CI/CD practices and DevOps tools.

CERTIFICATIONS

- NPTEL Cloud Computing
- AWS Academy Cloud Foundations
- Full Stack Web Development - Udemy
- Front-End Development Internship - NIELIT Virtual Academy
- Salesforce Developer with Agentblazer Champion Program
- Generative AI - Google / Coursera
- Data Science - Oracle Academy
- MongoDB Indexes - MongoDB University
- Java (Basic) - HackerRank
- SQL (Basic) - HackerRank
- Federated Machine Learning - Vardhaman College of Engineering
- Wadhvani Foundation Employability Skills Program
- Advanced AI and Machine Learning Techniques
